

Wireless Camera Solution

Exceptional vision and safety for truck and Off Highway

Wireless cameras and monitors feature a code-pairing technology that allows for simple installation and setup of the system. The code-pairing also helps to reduce interference. It maintains a stable video connection with a barrier-free transmission distance of up to 130 yards.

Continental's wireless cameras offer a range of applications in small and medium trucks, agricultural and construction equipment, and material handling applications. The line also incorporates a camera designed specifically for forklift applications.

Features & Benefits

- Off the Shelf products
- > Easy Installation and Instant pairing
- > Strong anti-interface and stable connection
- Night Vision
- Water and dust proof products
- Dual Voltage 12V and 24V

Application

Wireless Cameras

120° IP 69K for Quad monitor

Model No. 2910000242600

- > Wireless & waterproof cameras :IP 69K
- > Ideal for articulated equipment or vehicles where long cable lengths are not desired
- > PAL / NTSC Compatible

Technical Specifications

- › Digital Wireless transmission: max. 120mt
- > Wide view angle 120°.
- > Resolution: 756 X 504 Pixels
- > 4 LEDs IR for night vision (max. 10mt).
- > Sensibility <0,1 Lux / 0 Lux with IR LEDs
- › Integrated Microphone
- Optional Mirror Function
- Vibration 10g
- > Shock resistance 100g
- > DC 10-32V power supply.
- Max. consumption: 300 mA.
- Operating Temperature range: -20° to 70°

120° IP 69K Single

Model No. 2910000119500

- > Wireless & waterproof cameras :IP 69K
- > Ideal for articulated equipment or vehicles where long cable lengths are not desired
- > PAL / NTSC Compatible

Technical Specifications

- › Digital Wireless transmission: max. 120mt
- Wide view angle 120°.
- > Resolution: 728 X 488 Pixels
- > 4 LEDs IR for night vision (max. 10mt).
- > Sensibility <0,1 Lux / 0 Lux with IR LEDs
- › Integrated Microphone
- Optional Mirror Function
- Vibration 10g
- > Shock resistance 100g
- > DC 10-32V power supply.
-) Max. consumption: 300 mA.
- › Operating Temperature range : -20° to 70°

Forklift Wireless camera for Quad

Model No. 2910000814500

Technical Specifications

-) Digital Wireless transmission: max. 120mt
- > Wide view angle 45°.
- > Resolution: 756 X 504 Pixels
- > 3 LEDs IR for night vision (max. 10mt).
- > Sensibility <0,1 Lux / 0 Lux with IR LEDs
- Vibration 6g
- > Shock resistance 80g
- > DC 10-32V power supply.
- Max. consumption: 300 mA at 12Vx
- › Operating Temperature range : -20° to 70°

> Wireless & waterproof cameras :IP 69K> Ideal for Forklifts and Material handling vehicles

Quad 7"

- > Ideal for Forklifts and Material handling vehicles
- > Dual Voltage 12V and 24V
- > PAL / NTSC Compatible

Technical Specifications

- > Screen size LCD Color 7"
- > With built-in quad split screen function
- Supports four camera inputs
- > Resolution: 800 X 480 Pixels
- > Luminosity (cd/m2): 400
- > With remote controller
- > Single View/Split view/Quad view selectable
- › Automatically turns on once vehicle is placed in reverse
- Loudspeaker
- Parking Aid

Technical Specifications

- > Screen size LCD Color 7"
-) Distance up to 120m (barrier free)
- > Resolution: 800 X 480 Pixels
- > Luminosity (cd/m2): 400
- > With remote controller
- Automatically turns on once vehicle is placed in reverse (Switched to +12V or 24V)
- Loudspeaker
- Parking Aid

Model No. 2910000118600

- > Ideal for Forklifts and Material handling vehicles
- Dual Voltage 12V and 24V
- > PAL / NTSC Compatible
