# VDO Performance Tachometers

Rugged construction, accurate stepper motor technology and ability to operate in extreme temperatures.

VDO PRT and Xtreme Performance Tachometers feature multiple configurations for 2-10 cylinder engine applications. These rugged 10,000 and 12,000 RPM tachs are available in a choice of silver or black dial face with chrome bezel.

## Features

- Integrated programmable shift light
- LED illumination with illuminated pointer
- Accurate and steady microprocessor controlled stepper motor
- Xtreme tachs feature record and peak recall
- Simple 4 wire hookup

## Technical Specifications

- Tachometer input: for 2 – 10 cylinder engines
- Temperature tolerance: -40F to +185F
